

RUBICAB ECW CLADDING

Maintenance Free Composite Cladding, Quick to Install with Hidden Fasteners

Benefits of ECW Cladding

- No oiling, staining or painting ever!
- Install horizontally or vertically
- Secret fixings available
- Wide range of profiles/designs
- High UV resistance

ECW Wall Panelling is a great alternative to painting and traditional cladding weatherboard materials. It will probably cost you less to resurface your entire house with ECW than it would to get your house sanded back and repainted.

Easy to clean, even graffiti on the surface can be removed with a sandpaper (except with woodgrain boards). Fire resistant, waterproof and with solid structure helps reduce internal heat and acts as a sound barrier as well. The natural wood look makes it ideal to create a likeable building in a beautiful garden or the outback.

Our Cladding Range

ECW Siding Wall Panel 1

This flat panel is 12mm solid composite and has two different sides to choose from. First is a brushed finish a 9mm smooth edge between each slat. The alternative side has 2mm v-grooves every 19mm. Each board locks the other board into place. A countersunk screw is required on every row (which will be hidden) ~550mm apart.

Length	Effective Width	Structure	Fixing
2900x164x12	150mm	Solid	Screws

ECW Siding Wall Panel 2

This wall panel looks more traditional as it overlaps on a 5° angle. 2mm v-grooves every 8mm.

Length	Effective Width	Structure	Fixing
2900x152x17	138mm	Solid	Screws

ECW Siding Wall Panel 3

This wall panel provides a brushed smooth finish and with a stylish 2mm dark v-groove between each board. Stainless steel clips and screws provide a quicker fixing option as there is no need to drill or countersink.

Length	Effective Width	Structure	Fixing
2900x151x11	137mm	Honeycomb	Secret Clips

Teak Siding Panel 2, Charcoal Siding 1 alternative side, Coffee Brown Siding 1

The Perfect DIY Solution

We are not just a supplier; we deliver our best practices to our customers to ensure our customers can build a project knowing exactly what they need to do and how to go about it.

Email us your photos, location and a plan so we can get started straight away:

composite-wood.com.au/contact-us

Have left over materials after completing your project? No worries! Just bring them back to us and we will provide you a 100% refund on the materials you didn't use, providing they are full and undamaged units.

Product Care

While our products are maintenance free, they do need a clean every now and then. For cleaning and removing watermarks, sponge mops with cold or soapy water work well as they can clean inside the grooves. Also, high-pressure cleaners can be used.

Most marks and scratches can be sanded out easily with 40 grit sandpaper with the grain.

Delivery & Pickup

We offer Australia-wide distribution using TOLL at exceptionally low prices. We can deliver to your door or 'care of' a commercial or industrial company with a forklift near you for exceptionally low prices. You are also welcome to come and pick up at the RUBICAB Factory.

We also offer same day local deliveries throughout South-East Queensland and Northern NSW. You are also welcome to come and pick up at the RUBICAB Factory, Burleigh Heads.

Warranty

We offer a simple to understand 10-year guarantee on all ECW products fit for residential purpose and 7 year warranty for commercial applications. Providing a contractor or builder installs it. Or, if you are a DIYer, built using our guidelines.

Our warranty mostly covers structural defects. We will replace your ECW material if installed and used under typical conditions. We will replace the defective product if it cracks, splinters, bows or suffers an infestation of woodborers or termites.
